

Welcome to the Mendocino Community Network.

This page is the home page specifically designed for use by older browsers such as Internet Explorer 4.5 for Macintosh and Netscape 4.7 and earlier. We have made every attempt to include as many features as possible from our main MCN website available to customers using these older browsers. However, in some cases you may find that some pages do not load correctly.

If you have a newer browser, please use the main MCN home page at <http://www.mcn.org>
