

Whether you are looking for a reliable, high-speed connection here on the North Coast, or a dialup connection around the world, MCN brings you state of the art Internet connections with first rate service.

Billing: We encourage all of our customers to become familiar with the MCN On-Line billing site where you can see payment and invoice information, make payments, examine dialup usage hours, and find other useful information related to your MCN account.

For questions regarding your bill call 937-1444/800 796-3896, 9am-6pm M-F or send an e-mail to billing@mcn.org

Co-Location : If you need the control of managing your own server, MCN has several options for co-location of your server.

DSL : MCN offers DSL service in selected parts of Mendocino, Fort Bragg, Chico, Clearlake, Monterey, Sacramento, Santa Rosa, San Francisco, LA and many other parts of California.

Dialup : MCN provides state of the art V.92 toll free dialup across California. Toll free numbers are available in California

Domain Registration and Service : If you're looking for that special domain name to attach to your website, MCN can help. We provide a full domain registration service as well as domain service to make sure your domain is pointed at the right web server. In addition we can set up e-mail addresses for your domain name.

E-Mail Services : MCN offers everything from single e-mail boxes to bulk e-mail packages.

Fusion : MCN's landline and next generation DSL bundle with free local and long distance, free phone features, and fast internet in selected areas of Mendocino and Fort Bragg

goMobi Mobile Websites : Make your website easily assessable by mobile devices.

[Listservs](#): Descriptions of MCN's free public and community listservs for our users: Instructions, guidelines, subscription and un-subscription links. Private and Non-Profit Listservs are also available by contacting MCN, 707 937-1444 or 800 796-3896.

[MCN Photo Gallery](#) : Information on how to submit photos and art work for the MCN Gallery.

[Security](#) : MCN has a wide variety of free and low cost options to provide security when using our Internet services.

[Web Hosting](#) : We have basic web packages starting as low as \$5 per month and a robust statistics program to give you information about the traffic to your site. We also have PHP, Front Page extensions and MySQL databases available.
